

FEMA ICS 700a Course Modified for Civil Air Patrol.

**For squadron use when
doing group training.**

FEMA

**National Incident Management System, An Introduction
IS-0700.A – October 2014
Visual 1.1**

Course Overview

NATIONAL INCIDENT MANAGEMENT SYSTEM

Homeland
Security

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.2

Course Objectives

Describe:

- The intent of NIMS.
- The key concepts and principles underlying NIMS.
- The purpose of the NIMS components.
- The purpose of the National Integration Center (NIC).

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.3

Course Logistics

- **Safety Briefing**
- **Sign-in sheet**
- **Housekeeping:**
 - **Breaks**
 - **Cell phone policy**
 - **Facilities**
 - **Other concerns**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.4

Successful Course Completion

- **Achieve 75% or higher on the final exam.**

Possible exam material

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.5

Understanding NIMS

FEMA

National Incident Management System, An Introduction
IS-0700.A – October 2014
Visual 1.6

Unit Objectives

Describe:

- The intent of NIMS.
- The key concepts and principles underlying NIMS.

Unit List

- ✓ Overview
- ➔ Understanding NIMS
 - Preparedness
 - Communications and Information Management
 - Resource Management
 - Command and Management
 - Additional Resources and Course Summary

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.7

NIMS Overview

What ? . . . NIMS provides a consistent nationwide template . . .

Who? . . . to enable Federal, State, tribal, and local governments, the private sector, and nongovernmental organizations to work together . . .

How? . . . to prepare for, prevent, respond to, recover from, and mitigate the effects of incidents regardless of cause, size, location, or complexity . . .

Why? . . . in order to reduce the loss of life and property, and harm to the environment.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.8

NIMS: What It Is/What It's Not

NIMS is . . .

- A flexible framework of:
 - Doctrine
 - Concepts
 - Principles
 - Terminology
 - Organizational processes
- Applicable to all hazards and jurisdictions

NIMS is not . . .

- An operational incident management plan
- A resource allocation plan
- A terrorism/WMD-specific plan
- Designed to address international events

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.9

HSPD 5 Management of Domestic Incidents

Homeland Security Presidential Directive 5 (HSPD-5) directed the Secretary of Homeland Security to:

- **Develop and administer a National Incident Management System (NIMS).**
- **Develop the National Response Framework (NRF).**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.10

The NIMS Mandate

Homeland Security Presidential Directive 5 (HSPD-5) requires all Federal departments and agencies to:

- **Adopt and use NIMS in incident management programs and activities.**
- **Make adoption of NIMS by State, tribal, and local organizations a condition for Federal preparedness assistance (through grants, contracts, and other activities).**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.11

Collaborative Incident Management

NIMS:

- Is **not** an operational incident management or resource allocation plan.
- Represents a core set of doctrines, concepts, principles, terminology, and organizational processes
- Enables effective, efficient, and collaborative incident management.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.12

NIMS Builds on Best Practices

NIMS integrates emergency management best practices that:

- **Lay the groundwork for the components of NIMS.**
- **Provide for the further development and refinement of supporting national standards, guidelines, protocols, systems, and technologies.**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.13

NIMS Is Dynamic

NIMS:

- Is **not** a static system.
- Fosters the development of specialized technologies that facilitate response.
- Allows for the adoption of new approaches that will enable continuous refinement of the system.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.14

Flexibility

Planned Events

Forecasted Events

No-Notice Events

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.15

Standardization

Standardized organizational structures:

- Improve integration and connectivity among jurisdictions and disciplines.
- Allow those who adopt NIMS to work together.
- Foster cohesion among various response organizations.

FEMA

National Incident Management System, An Introduction
IS-0700.A – October 2014
Visual 1.16

NIMS Benefits

Standardized organizational structures:

- Dynamic system that allows for the adoption of new approaches that will enable continuous refinement of the system.
- Establishment of standardized organizational structures that improve integration among jurisdictions and disciplines
- Provides a standardized structure that Allow those who adopt NIMS to work together.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.17

Discussion Question

**What actions does
your organization
take that exemplify
NIMS best practices?**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.18

NIMS Components

Preparedness

**Communications and
Information Management**

Resource Management

**Command and

NIMS Preparedness

NATIONAL INCIDENT MANAGEMENT SYSTEM

Homeland
Security

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.20

Unit Objectives

- Describe the importance of preparedness.
- Identify the NIMS mechanisms and tools used to help enhance preparedness.

Unit List

- ✓ Overview
- ✓ Understanding NIMS
- Preparedness
 - Communications and Information Management
 - Resource Management
 - Command and Management
 - Additional Resources and Course Summary

See pages 9-22 of the NIMS document.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.21

NIMS and Other Preparedness Efforts

- **HSPD-7: Critical Infrastructure Identification, Prioritization, and Protection** established the U.S. policy for “enhancing protection of the Nation’s critical infrastructure and key resources.”

- **HSPD-8: National Preparedness** directed DHS to develop a common, unified approach to “strengthen the preparedness of the United States to prevent and respond to threatened or actual domestic terrorist attacks, major disasters, and other emergencies.”

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.22

NIMS and the National Response Framework

The National Response Framework (NRF):

- Is a guide to how the Nation conducts all-hazards response.
- Presents the guiding principles that provide the structure and mechanisms to ensure effective Federal support of State, tribal, and local related activities

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.23

NIMS and the National Response Framework

The National Response Framework (NRF):

- Builds upon the NIMS coordinating structures to align key roles and responsibilities.
- Links all levels of government, nongovernmental organizations, and the private sector.
- Holds the basic premise that incidents should be managed at the lowest jurisdictional level possible.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.24

Elected and Appointed Officials

NIMS helps elected and appointed officials:

- **Ensure agency/jurisdiction policies for emergency management and incident response are clearly stated.**
- **Evaluate effectiveness and correct any deficiencies.**
- **Support a coordinated, multiagency approach.**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.25

Preparedness: Continuous Cycle

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.26

Preparedness: A Unified Approach

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.27

Levels of Capability

Inventorying and categorizing resources:

- **Establishes and verifies the levels of capability needed.**
- **Identifies and verifies that resources possess the needed qualifications.**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.28

Coordination of Preparedness Activities

Effective preparedness activities involve coordination among:

- **Individuals**
- **Preparedness organizations**
- **Nongovernmental organizations (NGOs)**
- **The private sector**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.29

NIMS Preparedness Efforts

This section describes the following preparedness efforts:

- **Planning**
- **Procedures and protocols**
- **Training and exercises**
- **Personnel qualifications and certification**
- **Equipment certification**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.30

Continuity Capability

Continuity planning should address:

- **Essential functions.**
- **Orders of succession.**
- **Delegations of authority.**
- **Continuity facilities.**
- **Continuity communications.**
- **Vital records management.**
- **Human capital.**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.31

Discussion Questions

**Name an example
of building continuity
capability.**

**What should
continuity planning
address?**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.32

Mutual Aid and Assistance Agreements

Mutual aid and assistance agreements:

- Provide mechanisms to quickly obtain emergency assistance in the form of personnel, equipment, materials, and other associated services
- Are formal documents that identify the resources that jurisdictions are willing to share during an incident.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.33

Discussion Questions

**What agreements
does your
organization
have in place?**

**What actions has
your organization
taken to strengthen
those agreements?**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.34

Procedural Documents

There are four standard levels of procedural documents:

- Standard Operating Procedure or Operations Manual
- Field Operations Guide or Incident Management Handbook
- Mobilization Guide
- Job Aid

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.35

Protocols

Protocols:

- Are sets of established guidelines for actions under various specified conditions.
- Permit the rapid execution of a task, a function, or a number of interrelated functions without having to seek permission.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.36

Discussion Questions

What is the difference between procedures and protocols?

What are some examples of each?

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.37

Training

Training should allow practitioners to:

- **Use the concepts and principles of NIMS in exercises, planned events, and actual incidents.**
- **Become more comfortable using NIMS, including the Incident Command System.**

FEMA

National Incident Management System, An Introduction
IS-0700.A – October 2014
Visual 1.38

Exercises

Exercises should:

- Include multidisciplinary, multijurisdictional incidents.
- Include participation of private-sector and nongovernmental organizations.
- Cover aspects of preparedness plans, particularly the processes and procedures for activating local, intrastate, or interstate mutual aid and assistance agreements.
- Contain a mechanism for incorporating corrective actions.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.39

Discussion Questions

How does your organization ensure that all response partners receive necessary training and participate in exercises?

What system do you have in place for corrective actions following an exercise?

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.40

Personnel Qualifications and Certification

Standards:

- Help ensure that personnel possess the minimum knowledge, skills, and experience necessary to execute response activities safely and effectively.
- Typically include training, experience, credentialing, validation, and physical and medical fitness.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.41

Equipment Certification

Equipment certification:

- Helps ensure that the equipment acquired will perform to certain standards.
- Supports planning and rapid fulfillment of needs based on a common understanding of the abilities of distinct types of equipment.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.42

Discussion Question

**What's the difference
between training and
credentialing?**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.43

Mitigation and Preparedness

Mitigation:

- Reduces the loss of life and property.
- Minimizes damage to the environment from natural or manmade disasters.
- Helps avoid or lessen the impact of a disaster.
- Impedes the cycle of disaster damage, reconstruction, and repeated damage.

FEMA

National Incident Management System, An Introduction
IS-0700.A – October 2014
Visual 1.44

NIMS Communications and Information Management

FEMA

National Incident Management System, An Introduction
IS-0700.A – October 2014
Visual 1.45

Unit Objectives

- Describe the importance of communications and information management.
- Define the concepts of common operating picture and interoperability.
- Describe the purpose of communications and information management standards, procedures, and protocols.

Unit List

- ✓ Overview
- ✓ Understanding NIMS
- ✓ Preparedness
- ➔ Communications and Information Management
 - Resource Management
 - Command and Management
 - Additional Resources and Course Summary

See pages 23-30 of the NIMS document.

FEMA

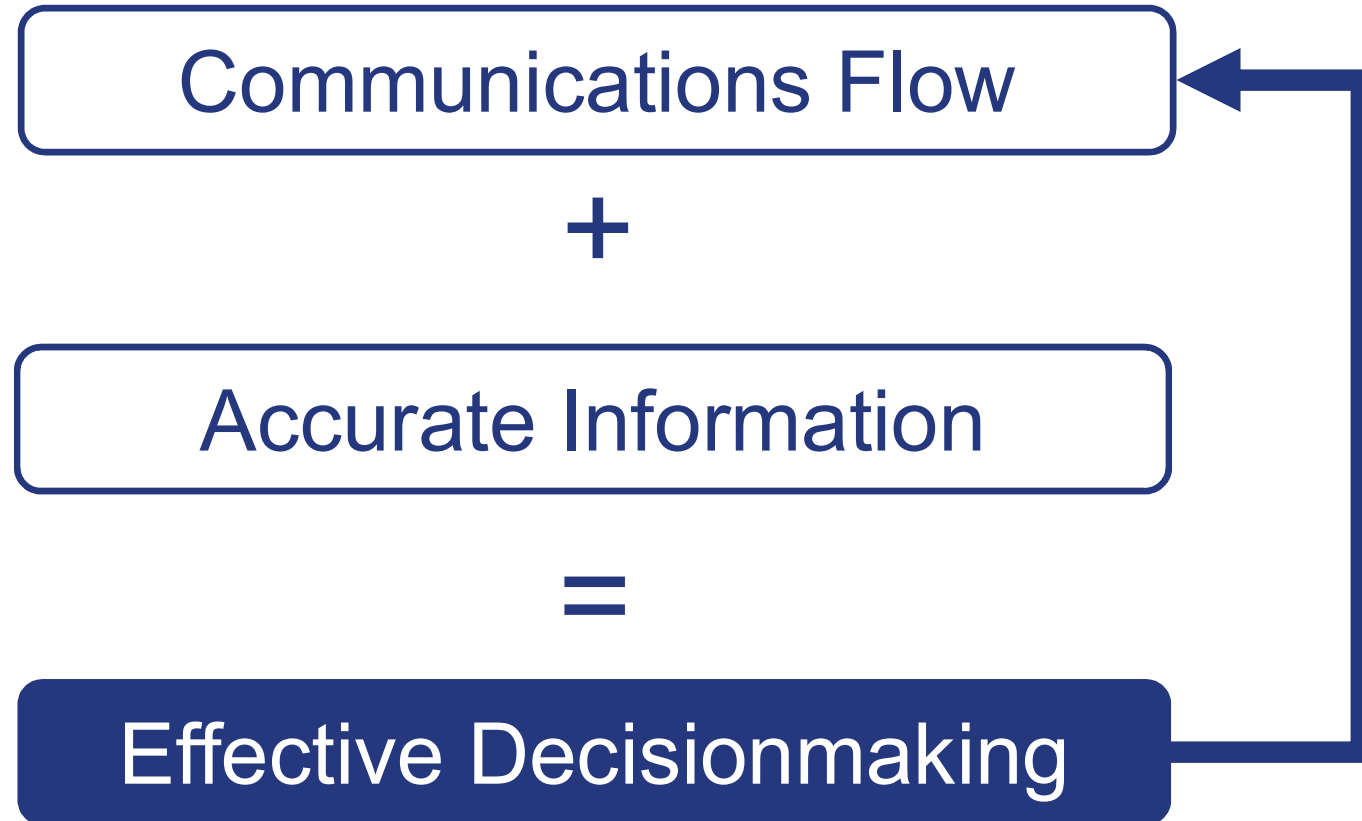

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.46

Flexible Communications and Information Systems

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.47

Common Operating Picture

A common operating picture:

- Is established and maintained by gathering, collating, synthesizing, and disseminating information.
- Allows on-scene and off-scene personnel to have the same information, including:
 - Availability and location of resources.
 - Status of assistance requests.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.48

Interoperability

Emergency communications systems should:

- **Be the same or linked to the same system used for nonemergency procedures.**
- **Effectively interface with national standards.**
- **Allow data sharing among key players.**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.49

Interoperability Saves Lives!

Consider the differences between the responses to the following incidents:

- **1982 Air Florida Flight 90 crash**
- **September 11, 2001, terrorist attack on the Pentagon**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.50

Reliability, Portability, Scalability

Communications systems should be:

- **Reliable** – able to function in any type of incident
- **Portable** – deployable to different locations and compatible with other systems
- **Scalable** – suitable for use on large or small scale

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.51

Resiliency and Redundancy

Communications systems should have:

- **Resiliency** – ability to perform after damage or loss of infrastructure
- **Redundancy** – duplication of services or the ability to communicate through diverse, alternative methods

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.52

Standardized Communications Types

Successful communications and information management require the use of:

- **Strategic communications**
- **Tactical communications**
- **Support communications**
- **Public address communications**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.53

Policy and Planning

Communications plans should identify:

- **What** information is essential and can be shared.
- **Who . . .**
 - Needs the information.
 - Has the information.
- **How . . .**
 - Information will flow.
 - Information is coordinated for public and media release.
 - Communications systems will be used.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.54

Agreements

Agreements should:

- Be executed among all stakeholders.
- Specify communications systems and platforms to be used.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.55

Equipment Standards and Training

Standards should address:

- **Conditions under which communications systems must operate**
- **Maintenance and updating of systems and equipment**
- **Periodic testing of systems**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.56

Incident Information

Information may provide for:

- Development of incident objectives and Incident Action Plan (IAP) to establish the overall incident objectives, strategies, and tactics.
- Identification of safety hazards
- Determination of resource needs
- Formulation of public information messages
- Analysis of incident cost

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.57

Communications and Data Standards

Standards may include:

- **A standard set of organizational structures and responsibilities.**
- **Common “typing” of communications resources.**
- **Use of agreed-upon communications protocols.**
- **Common identifier “titles” for personnel, facilities, and operational locations.**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.58

Plain Language & Common Terminology

Plain language:

- Is a matter of safety.
- Facilitates interoperability across agencies/ organizations, jurisdictions, and disciplines.
- Ensures that information dissemination is timely, clear, acknowledged, and understood by all intended recipients.
- Allow personnel from different agencies to work together

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.59

Discussion Questions

What challenges has your organization faced in incident communications?

What are the benefits of using plain language during an incident?

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.60

NIMS Resource Management

NATIONAL INCIDENT MANAGEMENT SYSTEM

Homeland
Security

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.61

Unit Objectives

- Describe the importance of resource management.
- Define the concepts and principles of effective resource management.
- Identify the steps for managing incident resources.

Unit List

- ✓ Overview
- ✓ Understanding NIMS
- ✓ Preparedness
- ✓ Communications and Information Management
- ➔ Resource Management
 - Command and Management
 - Additional Resources and Course Summary

See pages 31-44 of the NIMS document.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.62

Standardized Approach

This standardized approach is based on the underlying concepts:

- **Consistency**
- **Standardization**
- **Coordination**
- **Use**
- **Information Management**
- **Credentialing**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.63

Planning

Planning should result in:

- **Identification of resource needs.**
- **Development of alternative strategies to obtain the needed resources.**
- **Creation of new policies to encourage positioning of resources.**
- **Identification of conditions that may trigger a specific action.**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.64

Resource Identification and Ordering

The resource management process supports incident management by using standardized methods for:

- Identification
- Ordering
- Mobilization
- Tracking

Identification and ordering of resources are intertwined.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.65

Effective Resource Management (1 of 2)

Resource acquisition procedures may include:

- **Acquiring critical resources in advance and storing them in a warehouse.**
- **Supplying resources “just in time,” typically using a preincident contract.**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.66

Effective Resource Management (2 of 2)

Effective resource management includes:

- Management information **systems** to collect, update, and process resource data and track the status and location of resources.
- Standard **protocols** to request resources, prioritize requests, activate and mobilize resources to incidents, and return resources to normal status.

FEMA

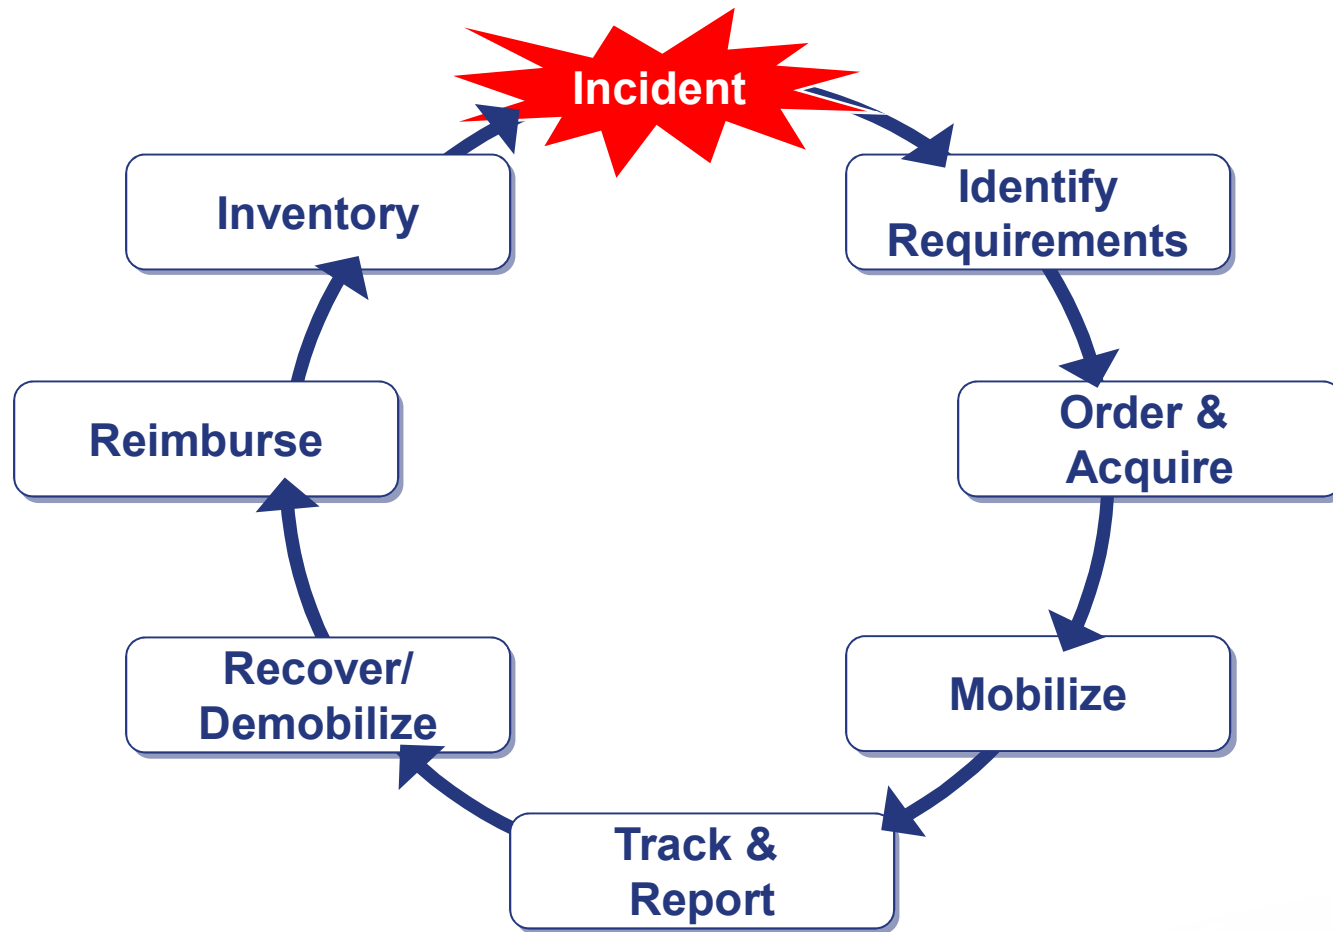

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.67

Managing Resources

FEMA

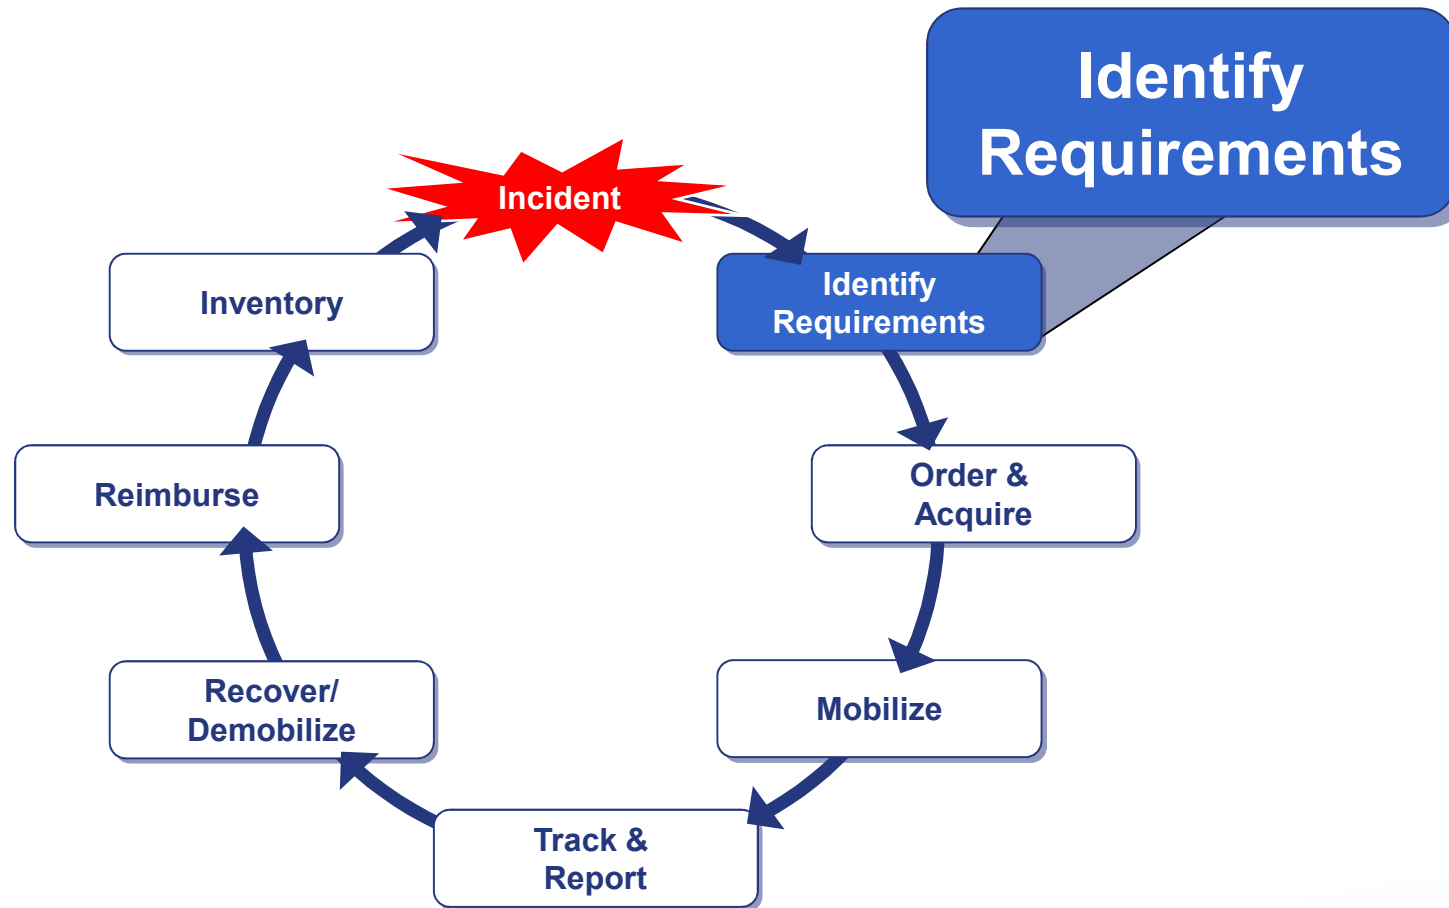

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.68

Step 1: Identify Requirements

FEMA

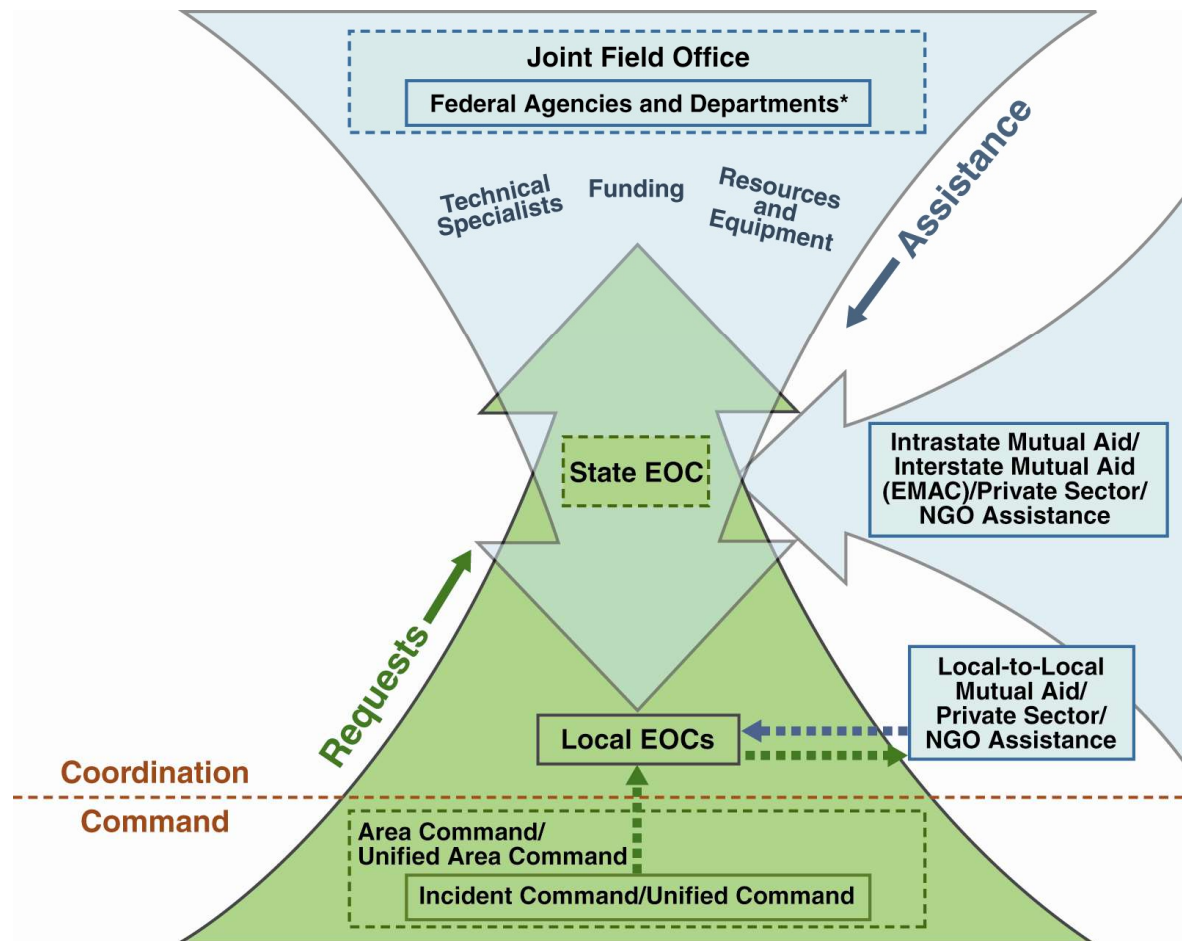

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.69

Flow of Requests and Assistance

FEMA

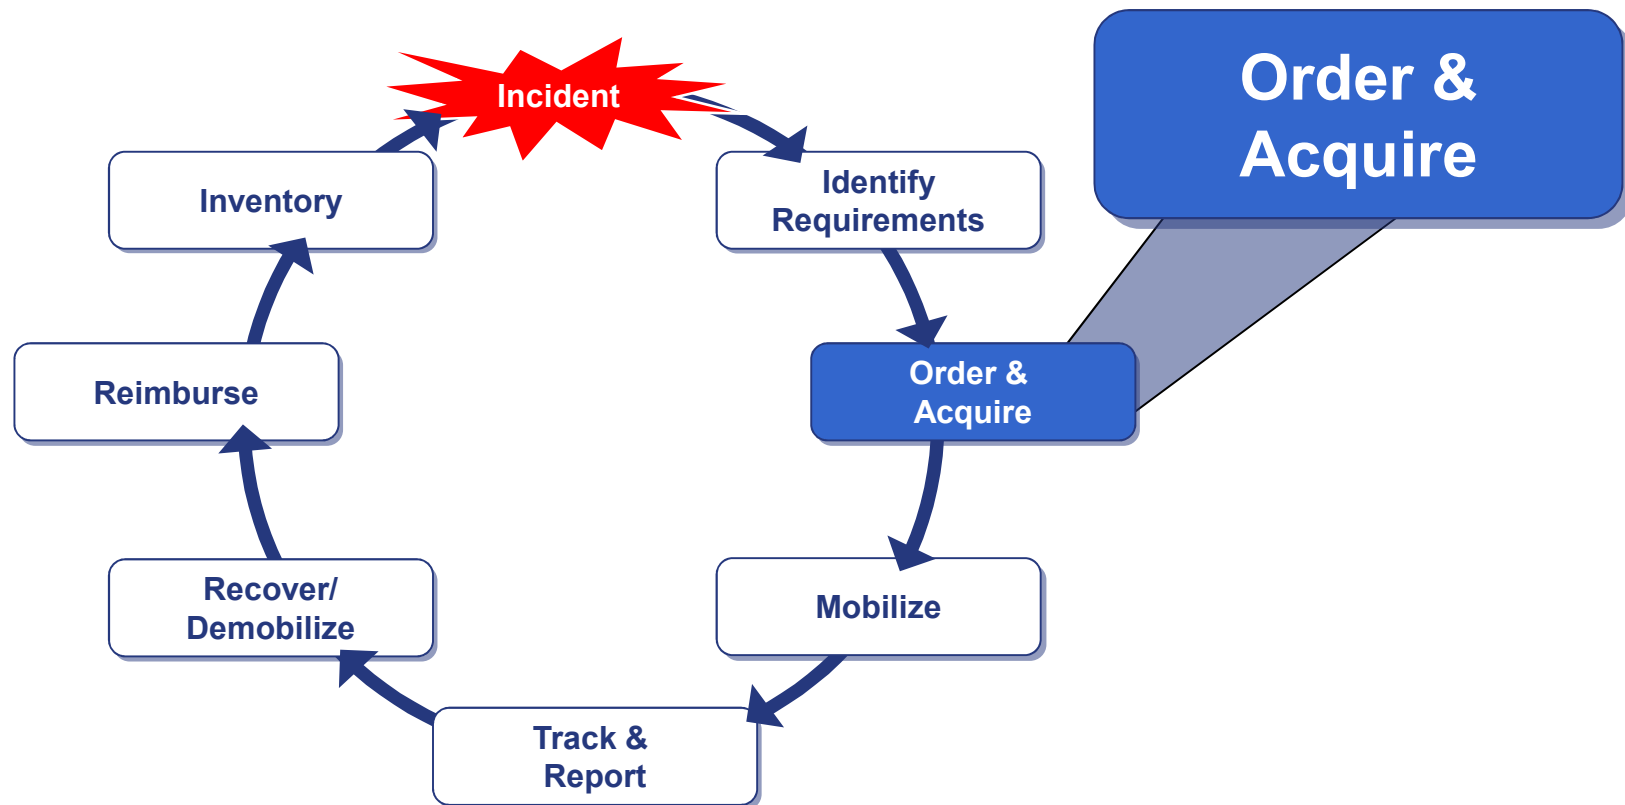

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.70

Step 2: Order & Acquire

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.71

Avoid Bypassing Systems

Reaching around the official resource coordination process:

- **Creates serious problems.**
- **Puts responders at risk.**
- **Leads to inefficient use and/or lack of accounting of resources.**

FEMA

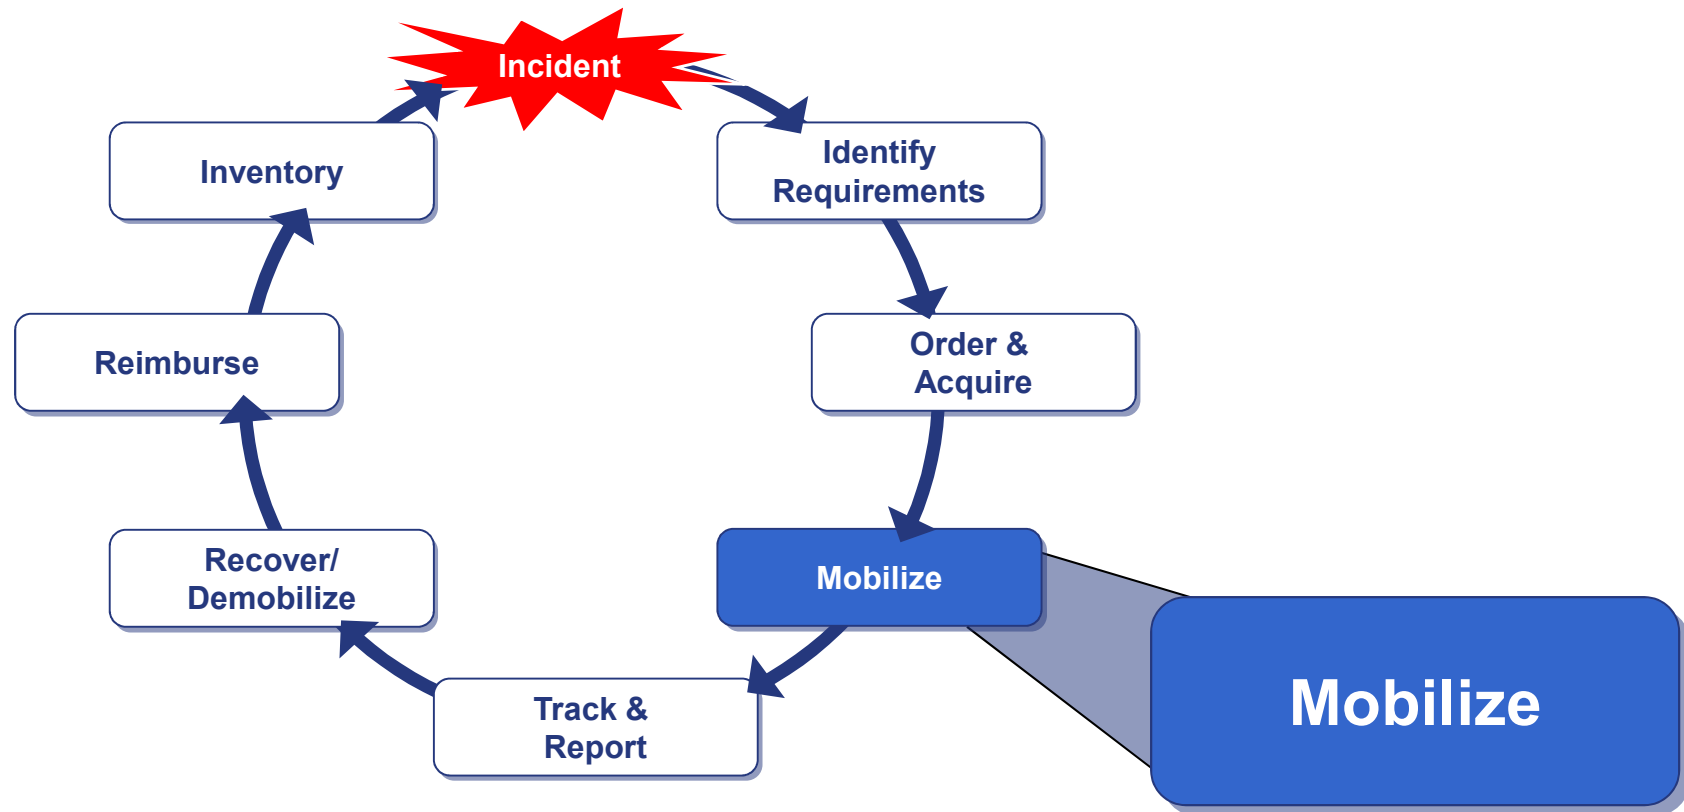

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.72

Step 3: Mobilize

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.73

Mobilization and Demobilization

Demobilization planning:

- Begins at the same time as mobilization.
- Facilitates accountability and efficiency.
- Occurs in the Planning Section.
- Happens as soon as possible to facilitate accountability of the resources

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.74

Discussion Question

**Why is it important
to begin demobilization
planning as soon
as feasible?**

FEMA

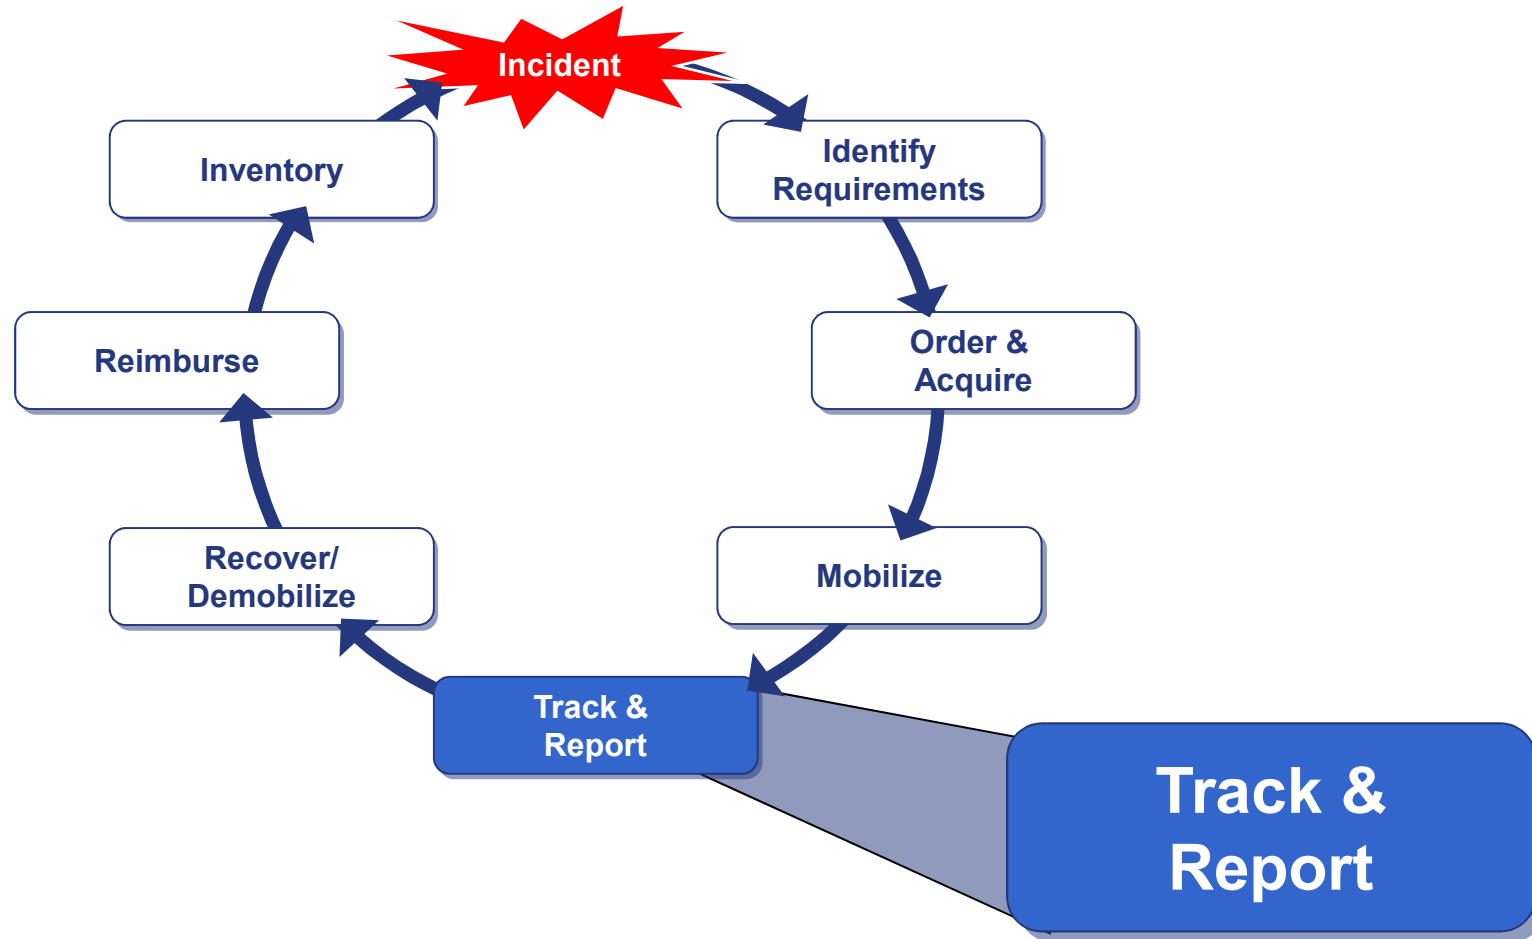

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.75

Step 4: Track & Report

FEMA

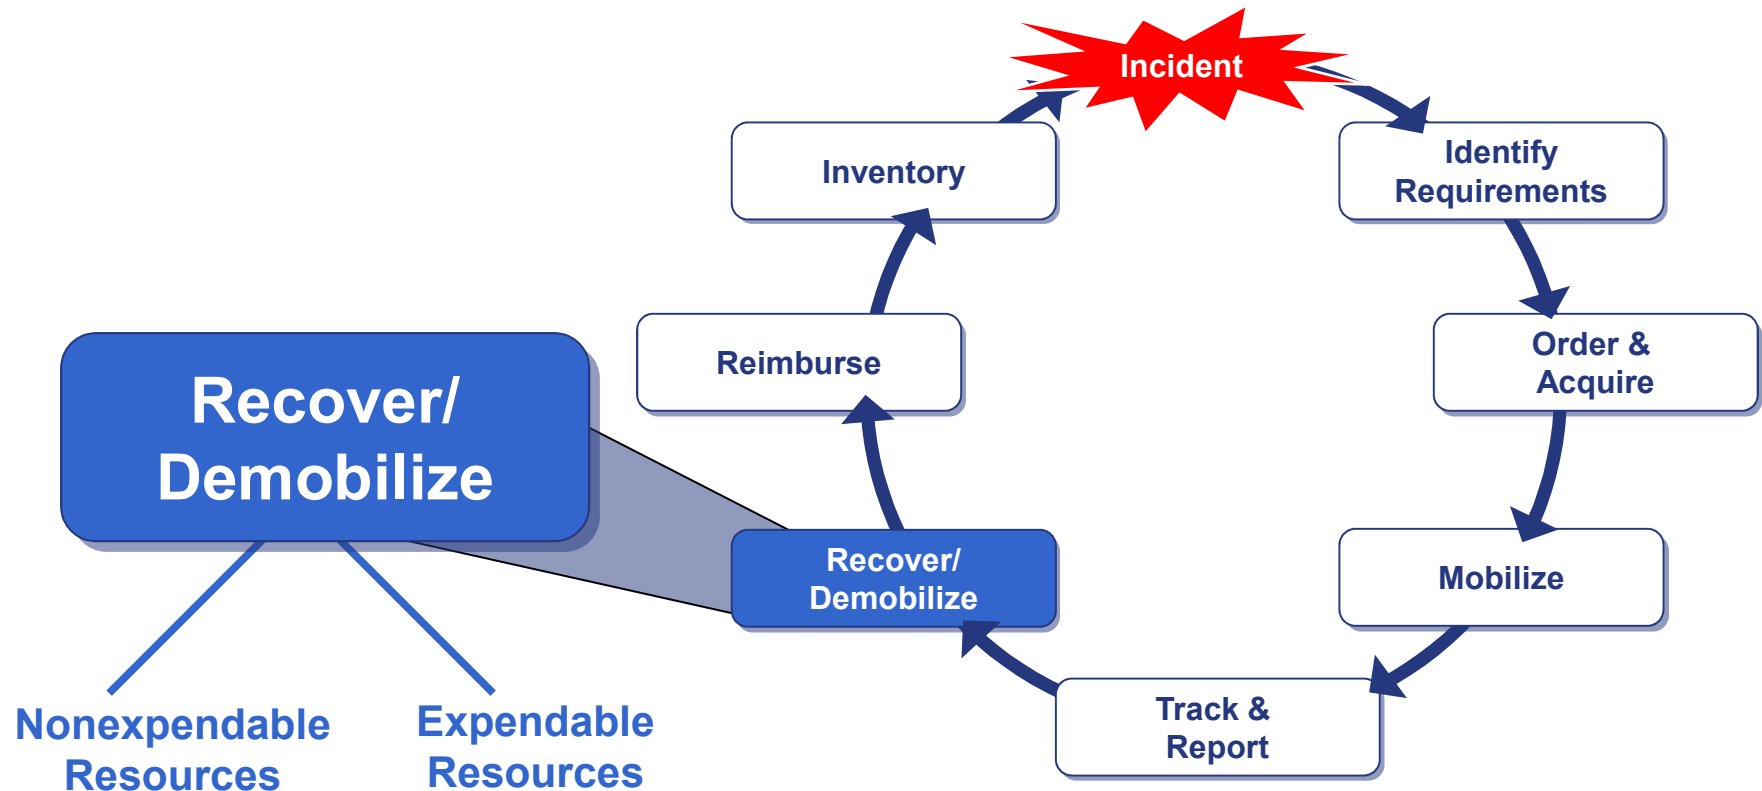

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.76

Step 5: Recover/Demobilize

FEMA

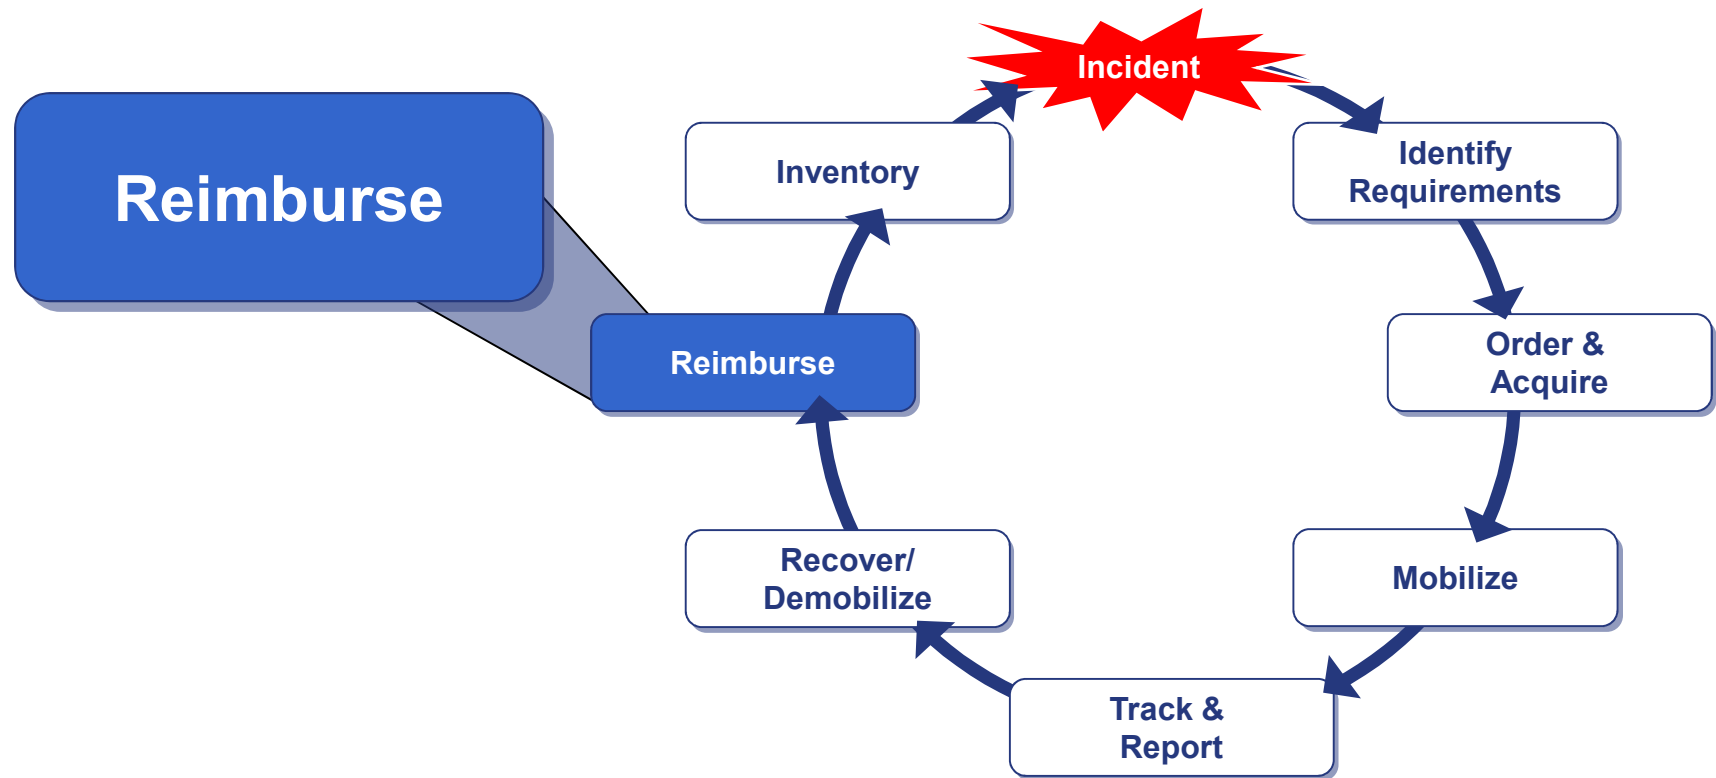

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.77

Step 6: Reimburse

FEMA

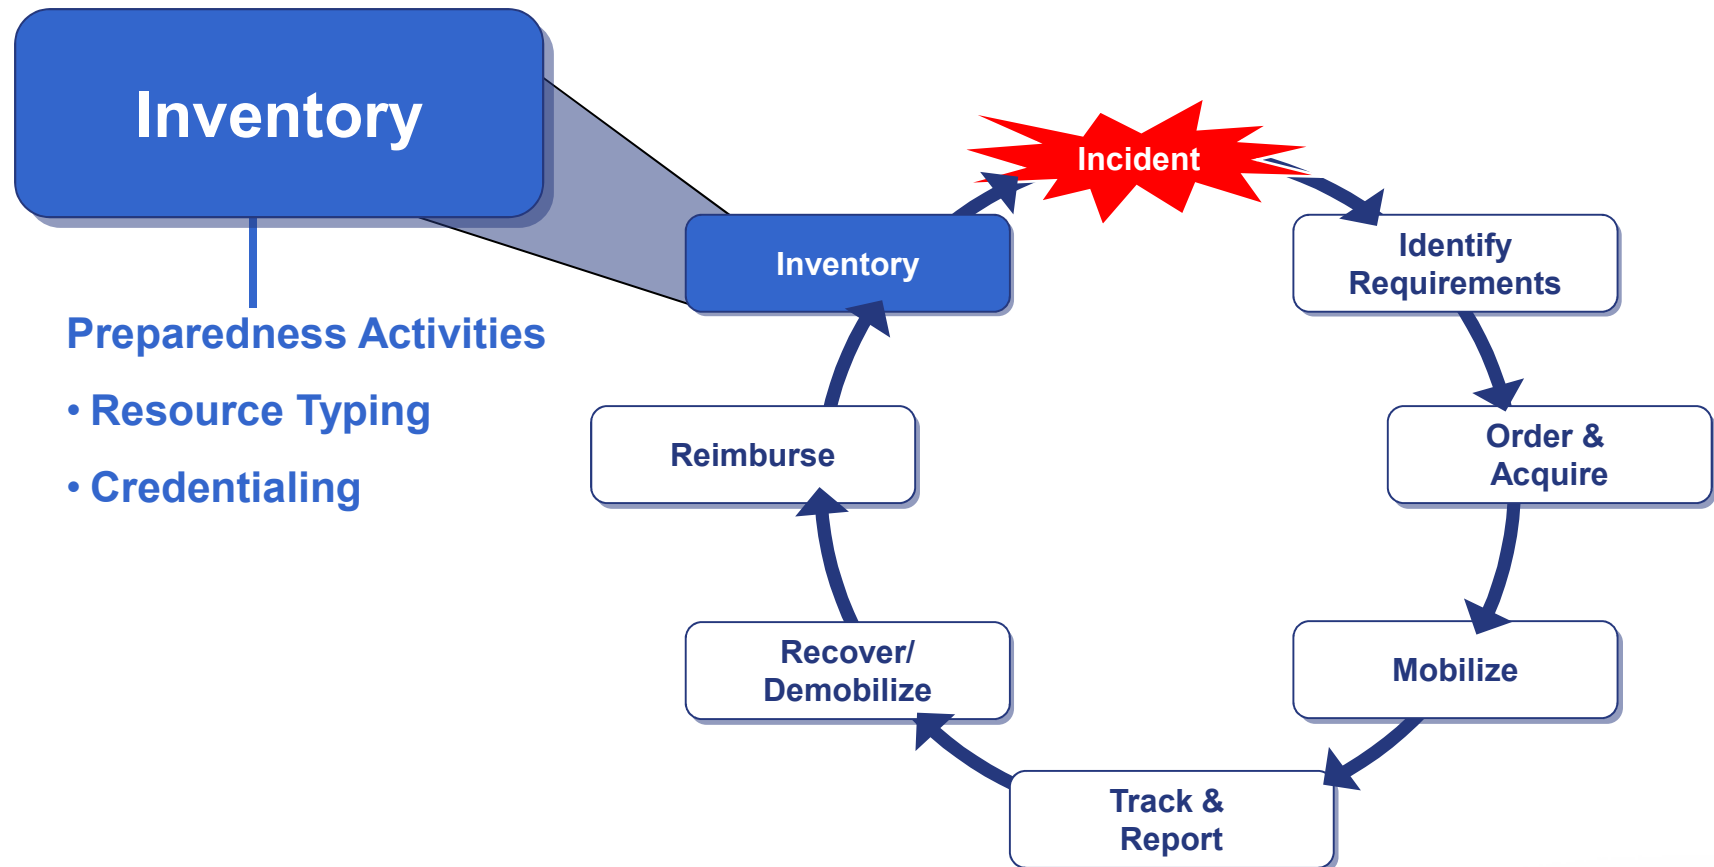

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.78

Step 7: Inventory

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.79

Identifying and Typing Resources

The National Integration Center typing protocol provides:

- Resource Category
- Kind of Resource
- Type of Resource

See pages 83-87 of the NIMS document

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.80

Discussion Question

**What are the
benefits of typing
resources?**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.81

Credentialing

The credentialing process involves an objective evaluation and documentation of an individual's:

- **Current certification, license, or degree**
- **Training and experience**
- **Competence or proficiency**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.82

Discussion Question

**What is your
organization's process
for credentialing
personnel?**

FEMA

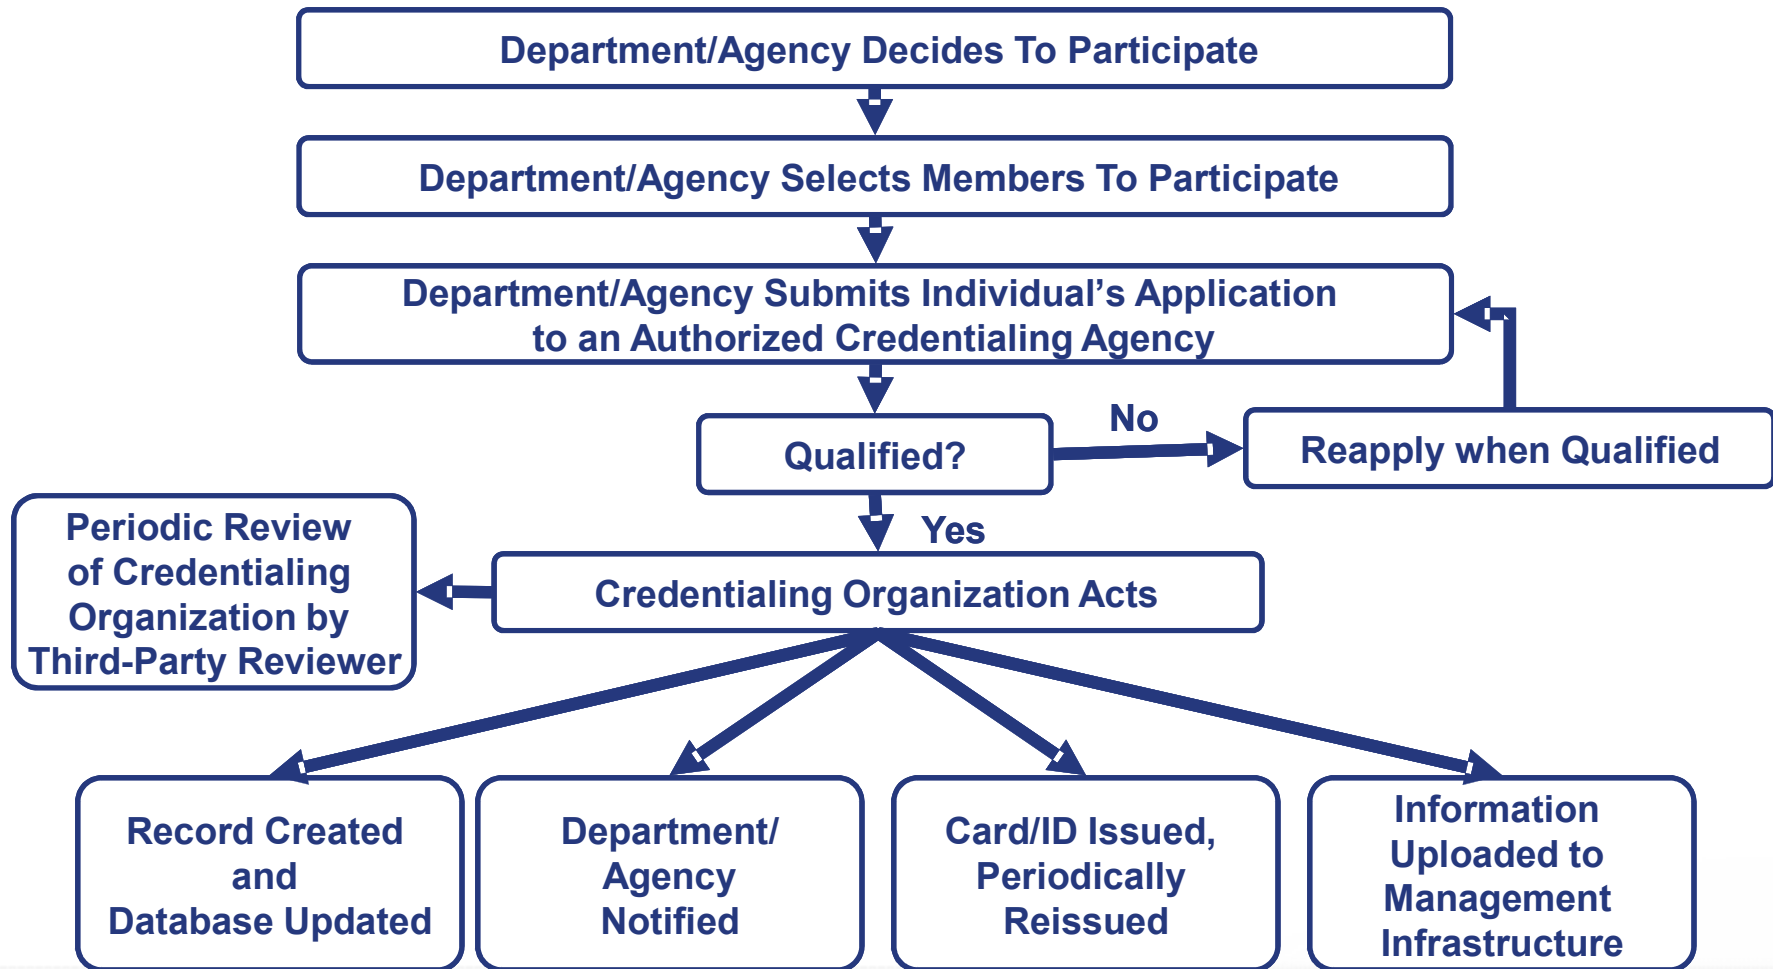

National Incident Management System, An Introduction

Visual 1.86

Command and Management Elements

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.87

Understanding Command & Coordination

Command

The act of directing, ordering, or controlling by virtue of explicit statutory, regulatory, or delegated authority.

Coordination

The process of providing support to the command structure, and may include incident prioritization, critical resource allocation, communications systems integration, and information exchange.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.88

Incident Command System

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.89

What Is ICS?

ICS:

- Is a standardized, on-scene, all-hazard incident management concept.
- Allows its users to adopt an integrated organizational structure that matches the complexities and demands of incidents.
- Permits seamless integration of responders from all jurisdictions.
- Can be used for incidents of any type, scope, and complexity.

FEMA

National Incident Management System, An Introduction
IS-0700.A – October 2014
Visual 1.90

Discussion Questions

What are examples of incidents or planned events where you have used ICS?

What were the benefits of using ICS?

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.91

ICS Features

- **Standardization**
 - Common terminology
- **Command**
 - Establishment and transfer of command
 - Chain of command and unity of command
 - Unified command
- **Planning/Organizational Structure**
 - Management by objectives
 - Incident Action Plan (IAP)
 - Modular organization
 - Manageable span of control
- **Facilities and Resources**
 - Comprehensive resource management
 - Incident locations and facilities
- **Communications/Information Management**
 - Integrated communications
 - Information and intelligence management
- **Professionalism**
 - Accountability
 - Dispatch/Deployment

 Take a few minutes to review the ICS features descriptions at the end of this unit.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Incident Command Functions

Incident Command

Operations

Planning

Logistics

Finance/
Administration

Note: Intelligence/Investigations may be added as a function, if required, to meet incident management needs.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.93

Incident Commander

The Incident Commander:

- Provides overall leadership for incident response.
- Delegates authority to others.
- Takes general direction from agency administrator/official.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.94

Incident Command Post

The Incident Command Post is:

- **The location from which the Incident Command directs operations.**
- **Generally located at or in the immediate vicinity of the incident site.**

FEMA

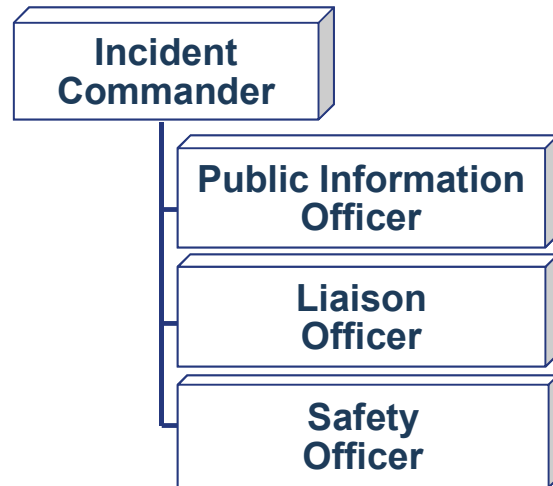

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.95

Command Staff

It may be necessary for the Incident Commander to designate a Command Staff that:

- **Provides information, liaison, and safety services for the entire organization.**
- **Reports directly to the Incident Commander.**

FEMA

National Incident Management System, An Introduction

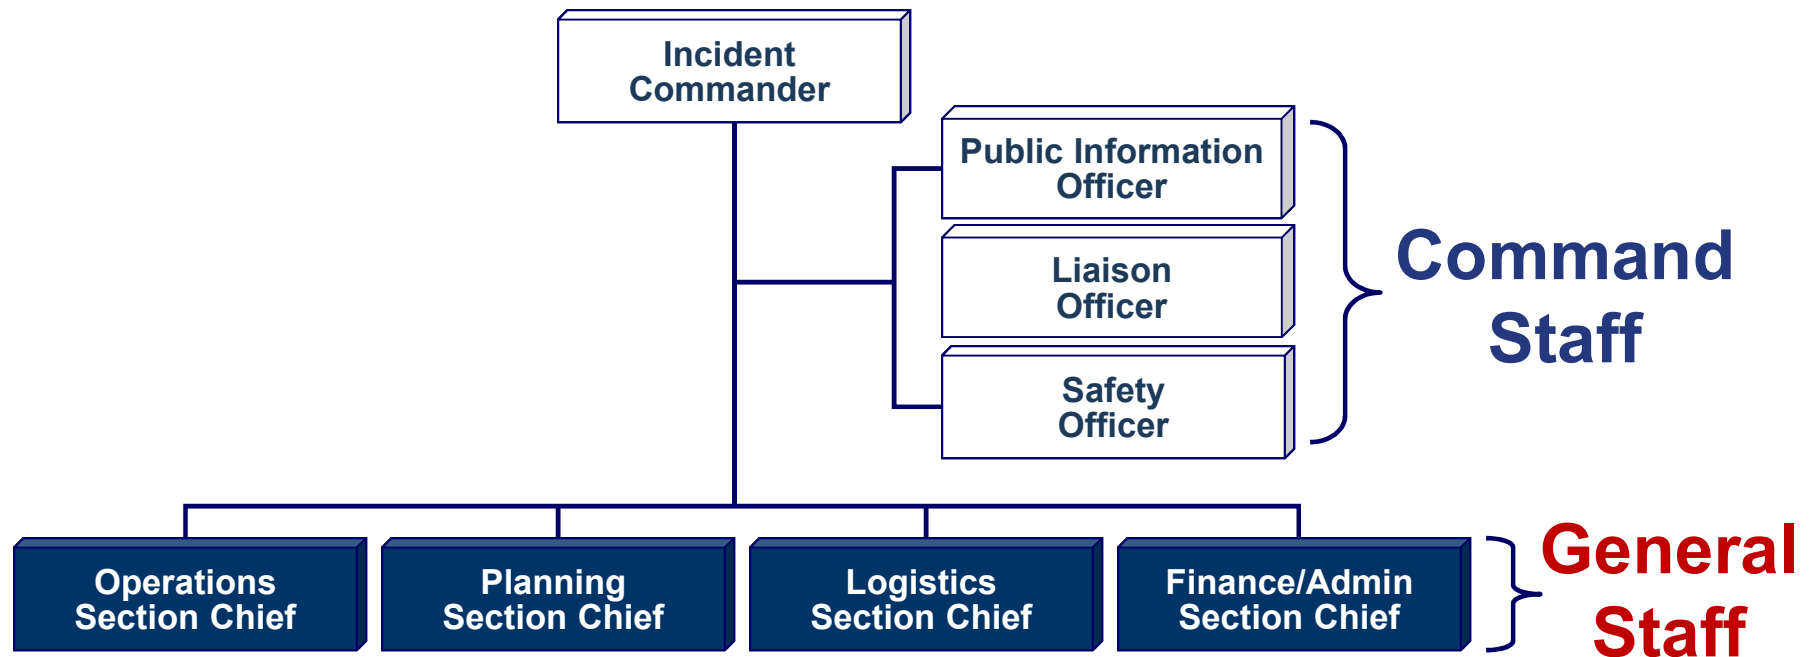

IS-0700.A – October 2014

Visual 1.96

General Staff (Section Chiefs)

Incident management personnel organized according to function and reporting to the Incident Commander.

Note: An Intelligence/Investigations Chief may be established, if required, to meet incident management needs.

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.97

Unified Command

As a team effort, Unified Command allows all agencies with jurisdictional authority or functional responsibility for an incident to jointly provide management direction to the incident.

In Unified Command, no agency's legal authorities will be compromised or neglected.

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.98

Unified Command Benefits

- A shared understanding of priorities and restrictions.
- A single set of incident objectives.
- Collaborative strategies.
- Improved internal and external information flow.
- Less duplication of efforts.
- Better resource utilization.

Area Command

Area Command is used to oversee the management of:

- **Multiple incidents being handled by separate Incident Command organizations; or**
- **A very large incident that has multiple Incident Management Teams assigned to it.**

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.101

Area Command: Primary Functions

- Provide agency or jurisdictional authority for assigned incidents.
- Ensure a clear understanding of agency expectations, intentions, and constraints.
- Establish critical resource use priorities between various incidents.
- Ensure that Incident Management Team personnel assignments and organizations are appropriate.
- Maintain contact with officials in charge, and other agencies and groups.
- Coordinate the demobilization or reassignment of resources between assigned incidents.

Multiagency Coordination Systems

FEMA

National Incident Management System, An Introduction

IS-0700.A – October 2014

Visual 1.103

Multiagency Coordination System (MACS)

A system that provides the architecture to support:

- Coordination for incident prioritization,
- Critical resource allocation,
- Communications systems integration, and
- Information coordination.

Multiagency Coordination System

**Coordination
Entities/
Groups**

**Emergency
Operations
Centers**

Emergency Operations Center (EOC)

The EOC does not command the on-scene level of the incident.

A physical location that supports Incident Command by:

- Making executive/policy decisions.
- Coordinating interagency relations.
- Dispatching and tracking requested resources.
- Collecting, analyzing, and disseminating information.
- Support incident management (on-scene operations) activities

Discussion Questions

What is an example of how a MACS supported a recent incident?

How can communication between the MAC and incident command be facilitated?

Speaking With One Voice

- Executives/senior officials must coordinate and integrate messages with on-scene PIOs and other agencies.
- The Joint Information System provides a structure for developing and delivering incident-related coordinated messages by developing, recommending, and executing public information plans and strategies.

FEMA

Visual 1.114

Joint Information System (JIS)

The JIS:

- Helps organize, integrate, and coordinate information across multiple jurisdictions and/or disciplines with NGOs and the private sector.
- Ensures timely, accurate, accessible, and consistent messaging.
- Includes the plans, protocols, procedures, and structures used to provide public information.

Taking the Exam

Instructions:

1. Go to <https://cdp.dhs.gov/femasid> and register for a FEMA Student ID (SID) Number.
 2. Make sure that you get all of your questions answered prior to beginning the final test.
 3. Go to <https://training.fema.gov/is/examnotice.aspx?eid=IS100b> to start the exam.
 4. When taking the test . . .
 - Read each item carefully.
 - Check your work and enter the answers online.
 - If you do not understand the question raise your hand.
- ➔ You may refer to the presentation and IS100b Document when taking the test
